

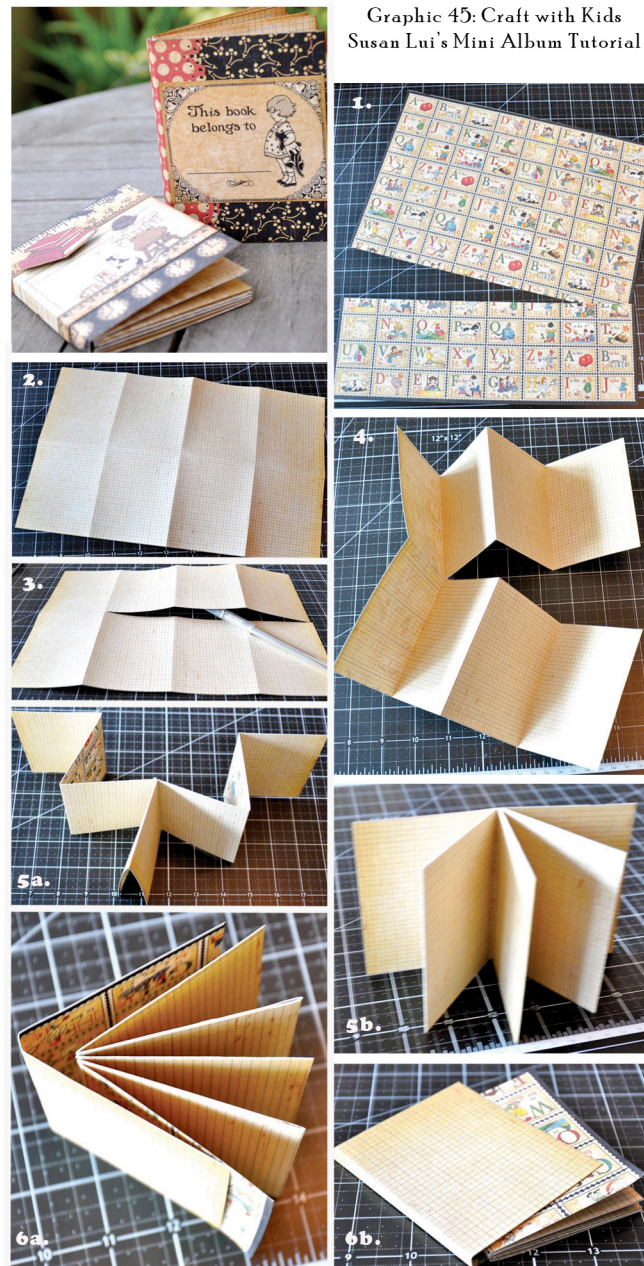

Graphic 45 Super Duper Easy Peasy Mini (Mini!) Album Tutorial

by Susan Lui
2012 Design Team Member

Supplies Required:

1 sheet of Graphic 45 patterned paper of your choice
Craft knife or scissors
Ruler

Instructions:

1. Trim a 4x12 inch piece from your 12x12 inch Graphic 45 patterned paper. Set this aside for creating your notebook cover.
2. Take the 8x12 inch piece of patterned paper. Score the paper in half lengthwise. Next, score the paper breadthwise in 3 inch intervals. You now have 8 scored panels measuring 3x4 inches each.
3. Cut along the fold lengthwise as shown, cutting across only 3 panels.
4. Fold the patterned paper as shown.
- 5a. Bring the uncut panel together as shown and fold the other pages to form the semblance of the notebook.
- 5b. Glue the 2nd and third panel together to form a page; glue the 4th and 5th panels to form a page; and glue the 6th and 7th pages together to form a page. You now have a front and back page of single page thickness and three inside pages of double page thickness.
- 6a. Create a cover using the remaining 4x12 inch patterned paper.
- 6b. Trim off the excess paper and glue the cover to the front and back sheets of the notebook.

Top Left Photo: Decorate the cover and you're done! A quick mini notebook measuring just 3x4 inches, perfect for quick notes or even photos and autographs. I used the images from Graphic 45's School Days patterned paper from An ABC Primer collection to decorate my notebooks. The book plates are just the perfect size for the note book.
